4. [REDACTED] put four days of work into preparing lists of people who might be knowledgeable on cartographic matters. They are for the operational use of an FOB case officer. Dick extracted the names and biographic information from material sent to us by [REDACTED] Dick also processed and transmitted to field collection organizations a great deal of background information on cartography which had been sent to him by D/GL for that purpose. This action completes for now the specific support work which Strategic Branch has undertaken for D/GL. I assisted an S & T case officer in preparing for the briefing of [REDACTED] who have gone to the USSR. Again in May [REDACTED] responded to a request from an SR case officer in MOB for maps for agent briefing purposes.
